During the second quarter of 2012, we restructured our four operating segments to more effectively leverage the strategic assets from our recent acquisitions of Embarq, Qwest and Savvis. We also revised our methodology for how we allocate our expenses to our segments to better align segment expenses with related revenues. In addition, we now allocate certain expenses from our enterprise markets-data hosting segment to our other three segments. We have restated prior periods to reflect these changes in our methodology.
