During the fourth quarter of 2013, we reallocated the discounts on our bundled services (local, long distance, and broadband) to the component products and services. The net effect of the bundled services reallocation was a reclassification of revenues from legacy services to strategic services. The prior periods have been restated to reflect this reclassification.

During the fourth quarter of 2013, we reallocated our CLEC revenues into their component products and services. The net effect of this CLEC reallocation was a reclassification of revenues from strategic services to legacy services. The prior periods have been restated to reflect this reclassification.

The Direct segment expenses for Data Hosting for the second quarter of 2013 have been restated to reflect the correction of a \$3 million error relevant to severance and retention expenses.

During the first quarter of 2013, we reorganized our operating segments in order to strengthen our focus on the business market while continuing our commitment to our wholesale, hosting and consumer customers. We also revised our methodology for how we allocate our expenses to our segments to better align segment expenses with related revenues. We have restated prior periods to reflect the reorganization and the change in our allocation methodology.
