#### **CENTURYLINK REPORTS SECOND QUARTER 2013 EARNINGS**

Achieved second quarter operating revenues of \$4.53 billion including core revenues of \$4.11 billion

Generated operating cash flow<sup>2</sup> of \$1.86 billion, excluding special items; at top end of guidance

Achieved Adjusted Diluted EPS<sup>2</sup> of \$0.69, excluding special items, compared to \$0.65 in second quarter 2012

Generated Free Cash Flow<sup>2</sup> of \$703 million, excluding special items and integration-related capital expenditures

Added more than 12,000 Prism<sup>TM</sup> TV subscribers during second quarter

Repurchased nearly 29 million shares, or 4.6% of December 31, 2012 outstanding shares, for approximately \$1 billion from program inception through August 6, 2013

Updated full-year 2013 guidance

**MONROE, La.** – CenturyLink, Inc. (NYSE: CTL) today reported solid operating revenues, operating cash flow and free cash flow for second quarter 2013.

"We generated strong financial results for the first half of 2013 as our operating revenues were in line with and operating cash flow exceeded our expectations. We have experienced higher than expected sales trends of recurring revenue services and continue to see a strong pipeline of sales opportunities. Our cross-selling initiatives in our managed hosting segment are gaining traction and driving results," said Glen F. Post III, chief executive officer and president.

1

<sup>&</sup>lt;sup>1</sup> Core revenues defined as Strategic revenues plus Legacy revenues (excludes Data Integration and Other revenues)

<sup>&</sup>lt;sup>2</sup> See attachments for non-GAAP reconciliations.

"We anticipate improvement in strategic revenue growth in the second half of this year; however, we expect the level of improvement to be slightly lower than the more aggressive growth originally anticipated," said Post.

"We remain confident in our portfolio of communications and managed hosting products and services that position us as a leader in the industry. We expect to continue investing in our key growth initiatives which we believe will lead to strong financial results and enhanced shareholder value over time.

"As of August 6, 2013, we have repurchased a total of nearly 29 million shares of our outstanding common stock for approximately \$1 billion, representing half of the \$2 billion stock repurchase program we announced in mid-February. We expect to continue to opportunistically repurchase stock through the remainder of the authorized program," Post concluded.

#### **Second Quarter Highlights**

- Generated free cash flow of \$703 million, excluding special items and integration-related capital expenditures.
- Added 12,200 CenturyLink® Prism<sup>TM</sup> TV subscribers during second quarter, ending the quarter with more than 132,000 customers.
- Ended the quarter with 5.91<sup>3</sup> million high-speed Internet subscribers in service, a decline of approximately 8,400 subscribers in second quarter 2013 due to typical seasonality and weaker than expected indirect sales.
- Achieved good growth in strategic revenue from high-bandwidth data services.
- Generated solid data hosting new sales in second quarter 2013, with growing momentum in cross-sell initiatives; achieved solid sequential data hosting revenue growth in the quarter.
- Purchased and retired 12.8 million shares for \$465 million during second quarter 2013.

#### **Consolidated Second Quarter Financial Results**

**Operating revenues** for second quarter 2013 were \$4.53 billion compared to \$4.61 billion in second quarter 2012. This decrease was driven by lower legacy services revenues primarily due to the impact of access line losses and lower access revenues, partially offset by increases in strategic revenues resulting primarily from increased business customer demand for high-bandwidth data services, colocation and managed hosting services and year-over-year growth in high-speed Internet and CenturyLink® Prism<sup>TM</sup> TV subscribers.

**Operating expenses**, excluding special items, decreased to \$3.79 billion from \$3.92 billion in second quarter 2012. The year-over-year decrease was primarily due to lower personnel-related costs, data integration and depreciation and amortization expenses, which were partially offset by higher colocation and managed hosting costs.

**Operating cash flow** (as defined in our attached supplemental schedules), excluding special items, decreased to \$1.86 billion from \$1.90 billion in second quarter 2012. This decrease was primarily the result of lower legacy revenues being partially offset by higher strategic revenues, higher data integration margins and lower personnel-related costs. For second quarter 2013,

<sup>&</sup>lt;sup>3</sup> Current and prior period subscriber counts have been adjusted to include approximately 3,000 high-speed Internet subscribers for our wholly-owned subsidiary, El Paso County Telephone, that had previously been excluded.

CenturyLink achieved an operating cash flow margin, excluding special items, of 41.1% versus 41.2% in second quarter 2012.

#### Adjusted Net Income and Adjusted Diluted Earnings Per Share (Adjusted Diluted EPS)

Adjusted Net Income and Adjusted Diluted EPS exclude the after-tax impact of special items, the non-cash after-tax impact of the amortization of intangibles related to the Embarq, Qwest and Savvis acquisitions, and the non-cash after-tax impact to interest expense of the assignment of fair value to the outstanding debt assumed in connection with those acquisitions.

Excluding the items outlined above, CenturyLink's Adjusted Net Income for second quarter 2013 was \$417 million compared to Adjusted Net Income of \$403 million in second quarter 2012. Second quarter 2013 Adjusted Diluted EPS was \$0.69 compared to Adjusted Diluted EPS of \$0.65 in the year-ago period. See the attached schedules for additional information.

#### GAAP Results - Second Quarter

Under generally accepted accounting principles (GAAP), net income for second quarter 2013 was \$269 million compared to \$74 million for second quarter 2012, and diluted earnings per share for second quarter 2013 was \$0.44 compared to \$0.12 for second quarter 2012. Second quarter 2013 net income and diluted earnings per share reflect the after-tax impact of severance, integration and retention costs associated with the Qwest and Savvis acquisitions, severance associated with expense reduction initiatives and a favorable federal income tax settlement, which netted to a \$20 million gain (\$0.03 per share) for the quarter. Second quarter 2012 net income and diluted earnings per share reflect the after-tax impact of a loss on the early retirement of debt, severance, integration and retention costs associated with the Qwest and Savvis acquisitions and severance associated with expense reduction initiatives, which amounted to a \$144 million charge (\$0.23 per share) on a net basis.

#### Consumer

The Consumer segment realized continued strategic revenue growth driven by year-over-year increased high-speed Internet and CenturyLink<sup>®</sup> Prism<sup>TM</sup> TV subscribers.

- Strategic revenues were \$628 million in the quarter, a 6.4% increase over second quarter 2012.
- Generated \$1.49 billion in total revenues, a decrease of 3.0% from second quarter 2012, reflecting the continued decline in legacy services tempered by the impact of Access Recovery Charges implemented effective July 1, 2012, in accordance with the CAF Order<sup>4</sup>.
- Added 12,200 CenturyLink® Prism<sup>TM</sup> TV subscribers during second quarter 2013, reaching nearly 9% penetration of the 1.5 million addressable homes.
- Continued to experience solid CenturyLink<sup>®</sup> Prism<sup>TM</sup> TV subscriber growth in the newly launched Phoenix market. Completed commercial launch of the service to Colorado Springs, Colorado and soft launch to Omaha, Nebraska during second quarter.

#### Business

The Business segment achieved strong growth of high-bandwidth data services and continues to experience solid sales momentum.

<sup>&</sup>lt;sup>4</sup> Federal Communications Commission's Connect America and Intercarrier Compensation Reform Order (the CAF Order) adopted on October 27, 2011

- Strategic revenues were \$617 million in the quarter, a 4.6% increase over second quarter 2012, driven by strength in high-bandwidth offerings such as MPLS<sup>5</sup> and Ethernet services. Excluding the impact of low bandwidth services, the adjusted growth rate was approximately 10%.
- Generated \$1.53 billion in total revenues, a 0.8% decline from second quarter 2012, as lower legacy services offset growth in high-bandwidth offerings.
- Favorable recurring sales trend with a healthy sales funnel.

#### Wholesale

The Wholesale segment continues to complete fiber builds to towers within our footprint, ending the quarter with nearly 16,700 fiber-connected towers.

- Strategic revenues of \$572 million in the quarter decreased \$3 million compared to second quarter 2012, as declines in copper-based revenue were partially offset by increases in wireless carrier bandwidth demand and Ethernet sales.
- Generated \$910 million in total revenues, a decrease of 3.8% from second quarter 2012, reflecting the continued decline in legacy revenues, primarily driven by the implementation of access rate reductions effective July 1, 2012, in accordance with the CAF Order<sup>4</sup> and lower long distance and switched access minutes of use.
- Completed more than 1,150 fiber builds in second quarter 2013 and expect to complete a total of 4,000 to 5,000 fiber builds in full-year 2013.

#### **Data Hosting**

The Data Hosting segment grew managed hosting (including cloud) and colocation services revenue during the quarter as cross-selling initiatives began driving improving growth in sales opportunities.

- Operating revenues were \$347 million in the quarter, a 7.4% increase from second quarter 2012.
- Colocation revenues were \$145 million, a 2.1% increase from second quarter 2012, and managed hosting revenues were \$134 million, representing a 21% increase over the same period a year ago. Managed hosting revenues include \$15 million of revenues contributed by the Ciber global IT outsourcing, or ITO, assets acquired October 15, 2012.
- Completed acquisition of AppFog, a Platform-as-a-Service (PaaS) capability specifically tailored to software developers adding to the already-extensive Savvis Cloud product catalog.
- Solid new sales during second quarter with strength in teamed sales of hosting products to network customers.

#### **Guidance - Third Quarter 2013 and Full-Year 2013**

Guidance for third quarter and full-year 2013 is outlined in the table below.

The Company expects third quarter 2013 operating cash flow and Adjusted Diluted EPS to decrease compared to second quarter 2013 primarily due to increased operating expenses related

<sup>&</sup>lt;sup>5</sup> Multiprotocol Label Switching

to our key growth initiatives and the normal seasonality of outside plant maintenance and utility costs.

For the full-year 2013, the Company has updated its guidance issued on May 8, 2013 to reflect year-to-date results as well as updated expectations for the remainder of the year. Guidance for full-year 2013 total operating revenues has been narrowed and lowered reflecting first half 2013 actual results, along with slower acceleration in data hosting revenues, a faster rate of decline in low bandwidth data services and the impact of lower universal service contribution rates than originally anticipated.

Beginning this quarter the Company is also providing guidance on its core revenues. Core revenues reflect the two largest contributors to operating revenues, which are Strategic revenues and Legacy revenues that are primarily recurring in nature. Core revenues exclude revenues from Data Integration (primarily customer premise equipment sales and related maintenance) and Other revenues (primarily universal service receipts).

#### **Forward Looking Statements**

Certain non-historical statements made in this release and future oral or written statements or press releases by us or our management are intended to be forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. These forward-looking statements are based on current expectations only, and are subject to a number of risks, uncertainties and assumptions, many of which are beyond our control. Actual events and results may differ materially from those anticipated, estimated, projected, expressed or implied if one or more of these risks or uncertainties materialize, or if underlying assumptions prove incorrect. Factors that could affect actual results include but are not limited to: the timing, success and overall effects of competition from a wide variety of competitive providers; the risks inherent in

rapid technological change; the effects of ongoing changes in the regulation of the communications industry (including the outcome of regulatory or judicial proceedings relating to intercarrier compensation, access charges, universal service, broadband deployment and net neutrality); our ability to successfully negotiate collective bargaining agreements on reasonable terms without work stoppages; our ability to effectively adjust to changes in the communications industry and changes in the composition of our markets and product mix caused by our recent acquisitions; our ability to successfully integrate recently-acquired operations into our incumbent operations, including the possibility that the anticipated benefits from our recent acquisitions cannot be fully realized in a timely manner or at all, or that integrating the acquired operations will be more difficult, disruptive or costly than anticipated; our ability to use net operating loss carryovers of Owest in projected amounts; our ability to effectively manage our expansion opportunities, including retaining and hiring key personnel; possible changes in the demand for, or pricing of, our products and services, including our ability to effectively respond to increased demand for high-speed broadband services; our ability to successfully introduce new product or service offerings on a timely and cost-effective basis; our continued access to credit markets on favorable terms; our ability to collect our receivables from financially troubled communications companies; any adverse developments in legal or regulatory proceedings involving us; our ability to pay common share dividends in accordance with past practices, which may be affected by changes in our cash requirements, capital spending plans, cash flows or financial position; unanticipated increases or other changes in our future cash requirements, whether caused by unanticipated increases in capital expenditures, increases in pension funding requirements or otherwise; the effects of adverse weather; other risks referenced from time to time in other of our filings with the SEC; and the effects of more general factors such as changes in interest rates, in tax rates, in accounting policies or practices, in operating, medical, pension or administrative costs, in general market, labor or economic conditions, or in legislation, regulation or public policy. These and other uncertainties related to our business and our recent acquisitions are described in greater detail in Item 1A of our Form 10-Q for the quarter ended March 31, 2013, as updated and supplemented by our subsequent SEC reports. You should be aware that new factors may emerge from time to time and it is not possible for us to identify all such factors nor can we predict the impact of each such factor on the business or the extent to which any one or more factors may cause actual results to differ from those reflected in any forward-looking statements. You are further cautioned not to place undue reliance on these forward-looking statements, which speak only as of the date of this report. We undertake no obligation to update any of our forwardlooking statements for any reason.

During the first quarter of 2013, we reorganized our operating segments in order to strengthen our focus on the business market while continuing our commitment to our wholesale, hosting and consumer customers. We also revised our methodology for how we allocate our expenses to our segments to better align segment expenses with related revenues. We have restated prior periods to reflect the reorganization and the change in our allocation methodology.

The above schedule presents adjusted net income and adjusted earnings per share (both excluding special items) by adding back to net income and earnings per share certain non-cash expense items that arise as a result of the application of business combination accounting rules to our recent acquisitions. Such presentation is not in accordance with generally accepted accounting principles but management believes the presentation is useful to analysts and investors to understand the impacts of growing our business through acquisitions.

<sup>\*</sup>See preceding schedules for a summary description of the impact of excluded special items.
